BY WAY OF EXPLANATION

of the differences between the logical correctness of Life Insurance and Annuity, permit us to restate that Life Insurance protects others in case of sudden, unexpected or untimely death of an individual named. Annuity on the other hand warrants, provides and pays a fixed income during the life (no matter how long prolonged) of an individual named. We require medical examination for Life Insurance. We sell Annuities without medical advice. 54th Year and doing business in 35 States.

Cuba Observes Guezo Anniversary. Havana, Dec. 8.—The Cubans have enjoyed a national holiday. It was the seventh anniversary of the death of General Guezo, who was killed while daringly attempting to raise an army in Havana province with which to attack Matanzas, and also the anniversary of the death of General Macco's eldest son, who was Macco's aid-de-camp and was shot while trying to rescue Macco's body. The ceremonies at Cascajal, where Macco was buried, were attended by a throng of people from Havana, including government officials and clergy.

Germany's Growing Population. Berlin, Dec. 8.—The growth of the population in 1902, regarding which statistics have just been tabulated, was the greatest ever known, amounting to 302,312, or 15.61 per 1,000, compared with 15.09 in 1901 and 14.03, the average for the last ten years. The number of births during the decade increased only slightly, remaining just above 2,000,000 yearly. The gain therefore is due exclusively to the diminished death rate, which was 20.56 in 1902 compared with 22.68 for the previous decade.

As soon as I began taking Dr. Gosson's Remedy I found such relief that I continued to take it and it was only a short time until I was a well man again; and I recommend it to anyone that has kidney trouble.
